THE ITALIAN SENATE RUSTY ABOUT BRUNO'S STATUE.

THE "FINE OLD PORT" STRIKE.

London, 7th—The British Ambassador in Paris, Lord Lytton, is so ill that there is very little hope of his recovery.

Paris, 7th—It is announced from Rome that the Italian Senators refuse to attend the unveiling of the monument to Giordano Bruno on Sunday next.

Oporto, 7th—The workmen in the wine factories have again struck, in spite of their increased wages.

REFORMS IN RUSSIA.

THE JOHNSTOWN HORROR.

London, 6th.—The Curds continue to commit atrocities in Armenia. Arson and outrages are frequent.

Brussels, 6th—The aged Marchioness of Chastellar, of an old Belgian family, has been murdered in her chateau near Mons. The murderer, who is supposed to be one of her discontented tenants, fired a shot through the window which pierced her heart.

Berlin, 6th—The Shah will arrive here on Sunday and remain three days.

St. Petersburg, 6th—The rumour that caused a fall on the Berlin Bourse, and which was to the effect that Russia was preparing her army for war, is denied by the official *Journal*, which says that Russia only desires peace. The rumour is attributed to speculators.

London, 7th—Boulanger ridicules the idea that the Exhibition can interfere with his chances. He says the French electors have made up their minds, and no Eiffel Tower will induce a change in their opinions. He says that his enemies count on the Army, the Senate, the Chamber and the Executive, but he counts on the nation at his back. He declares himself the warmest advocate of liberty of belief and religious education for youth as the parents may wish.

Paris, 7th—During the debate yesterday on the Education Budget, ex-Premier Ferry rose to speak, but was received with yells. A member of the Right shouted "The blood of those killed in Tonkin chokes you!" Similar words were shouted on all sides. Cassagnac appealed to the House to listen to Ferry.

St. Petersburg, 7th.—The Council of the Empire have approved the bill for reforming the administration of justice in the Baltic provinces.

Johnstown, 7th.—The floods are receding. After several explosions of powder and dynamite, the ruins near the bridge were opened up. Amongst them was found the wreck of one of the lost railway trains and the passengers in same. Some corpses were recovered. Yesterday 746 corpses were interred in Nineveh. General Hastings, who directs the works, says that it will require the labour of 5,000 men for several months to remove the ruins.

MINISTERIAL CRISIS CONTINUES.

Santiago (Chile), 7th—Ministerial crisis continues. It is said that the President has asked Manuel Recabarren to reorganize the Cabinet. Vicente Reyes refused to accept Presidency of Senate, but his resignation was refused, and he was unanimously re-elected. Claudio Vicuña refused Vice-Presidency, and the election was postponed till Monday. E. Cuevas is likely to be re-elected.

THE SOUTHERN TERRITORIES

We have been favored with a copy of Lieut. Colonel Rohde's Map of the Pampa, Rio Negro and Neuquen territories, and we must confess it is by far the best map of these territories that we have seen up to the present. The gallant Colonel knows every inch of those territories and has been engaged in the task of drawing up his exhaustive map for the last three years. Not satisfied with publishing an excellent map, he has also compiled a short work containing all the rudimentary information the student, the strategist, or the capitalist may require in a bird's-eye view of those immense Southern territories. The only defect we find in the work is that it is too short, as, after reading the contents, the inquisitive reader feels that a little more information might have been supplied.

The map meets a long-felt want and is published at a moment when the attention of people is drawn to the great advantages of the South as a field for capital, labor, and especially colonization. Whoever scans the map and follows the meandering course of that most beautiful of Argentine rivers, the Rio Negro, which Colonel Rohde christens the Argentine Rhine, cannot help thinking of the immense future in store for that fertile Valley. From the still waters of the Nahuei Huapi lake in the very midst of the Andine ranges, through the Argentine Switzerland of the Limay Triangle and the broad plains east of the meeting of the Neuquen and Limay, a broad stream, with banks of rich alluvial soil, flows to the Atlantic ocean.

A million people could thrive in that fertile valley in large towns and numerous colonies. The soil could yield wonderful crops of grain and corn, whilst the hills could produce the choicest wines in the republic. Meantime, what has been done to foster population and production in that territory? General Roca, when President of the Republic, drove away the savage tribes, gave security to life and property, established steamer communication with Buenos Ayres, and started a flotilla of three paddle-boats to navigate the river. Since then nothing has been done, and the most imperious requirement of the valley, the grant of title-deeds to squatters' properties, has been steadily disregarded.

Some miserable attempts were made to start colonies on the Rio Negro bank with people who may have known everything under the sun except the rudimental notions of agriculture. Thus an Indian colony starved on the most fertile soil in the country, and a German settlement met the same dismal fate. Imagine colonists starving in a valley where crops are sown and reaped without the aid of a plough or spade, where fat wethers and steers are so plentiful that they are selling for little more than the value of their hides! Yet, men and women have starved at Bola and Conesa, all owing to mismanagement of the authorities appointed by Government.

The Argentine Government and Congress need only glance at Colonel Rhode's map to see the immense virgin field that can be turned to account for colonization; the thousands of leagues in the Pampa Central and the thousands of leagues on the banks of the rivers Colorado, Negro, Limay, and Nuequen. Still, we know for a fact that all the fine, fertile lands on the river banks in these territories have fallen into the hands of capitalists and speculators, and out of their hands these lands must be wrenched if any serious attempt at colonization is contemplated. The Rio Negro and Colorado valleys should be expropriated, divided into home-steads, provided with railways, and then golden results might be expected to repay the government one hundred-fold all the expenses incurred. Such an eventuality, however, sounds like a chimera; but one great measure may be expected, and that is the concession of a line of railway to open up those valleys and enable farmers to send down their produce to the markets of consumption. Let that be done, and in very few years Lieut. Col. Rohde will see the necessity of publishing an improved and enlarged edition of his map and book. Meanwhile, all the settlers of those distant parts have their eyes rivetted on Congress and patiently await their fate.

THE ARGENTINE PAVILION

GOOD NEWS FOR ESTANCIEROS

(From our Special Correspondent.)

Paris, 8th May 1889

The fete of the 6th was the magnificent complement of that of the 5th, which was destined to commemorate the triumphant liberty of man. The centenary of 1789 is not, however, the simple commemoration of a glorious date, but the celebration of modern genius, which sprang from the French revolution. That is why the French have organized an universal exhibition for this year. They were desirous of gathering in the very cradle of the great modern revolution the fruits of human labor, which, thanks to the declaration of the rights of man, has acquired so considerable a development. Since universal liberty was proclaimed in 1789, science has been enabled to throw off her shackles and assist man. Free from the terrors of persecution, science has been enabled to display all her magic power and to offer to the wonder and contemplation of the representatives of all civilized nations the imposing spectale of the Eiffel Tower, 300 metres high a prodigious colossal monument which electricity illuminates with fairy-like effect.

On the 4th of May Vice President Pellegrini was entertained at a splendid banquet in the Kriegelstein Hall. Over 200 people were present, including most of the Argentine visitors to Paris. M. Rouvier, French Minister near our Government, who is at present here, was present at the banquet. Dr. Emile Daireaux was also there. And above all, I must mention that far-famed astronomer, Camille Flammarion, whose presence lent increased lustre to the brilliant gathering. The banquet was offered by Dr Ortiz, our ex-minister for Foreign Affaire. The vice-president replied in most graceful and felicitous terms. The menu and music were splendid. The invitation ran as follows:—

"The undersigned committee beg to solicit the pleasure of Mr. —'s company on the occasion of the banquet to be given on 4th May at 7 p.m. in the Kriegelstein Hall, in honour of the vice-president of the Argentine Republic, Dr. Carlos Pellegrini.

C. Alvear, E. Cambaceres, S. J. Unzué, Bruno Quintana, E. Acebal, A. Rocha, J. Martinez."

Dr. Pellegrini's presence in Paris called for this expression of appreciation and esteem from his countrymen in the great capital of civilization. Who does not admire the manly character of our vice-president? He belongs to the new generation of lovers of progress, and wherever he may be placed he will always distinguish himself.

The 8th of May will remain engraved as a proud and glorious date for France, for the opening of the Exhibition shews that the shines by her erudition, her art her science and her production. She holds the first place amongst nations. Honor, then, to all who have contributed to render her triumph so great and so lasting.

On the opening day of the Exhibition part of the Argentine Pavilion was open, and a preliminary exhibition was held in the lower story. I may say that it was the only pavilion open on that day. Towards night it was crowded and became a vast bazaar. Although most of the arrangements were merely of a provisional nature, still we managed to shew the public some of the riches of our country. The wheat and other produce were much fancied. Messrs Sansinena's frozen sheep attracted much attention. Twenty of our soldiers were in guard. Early in the morning the two wings began to fill with the in-pouring crowds, and I calculate that 25,000 people visited our Pavilion the first day of the Exhibition.

On the 25th of May, we are going to give a fête. The outside of the Pavilion attracts much attention, owing to the variety of the coloring, green however predominating. For my part I should have preferred light blue, being more in harmony with the French taste.

Let me call your attention to a curious detail. In the 6th year of the French Republic, that is in 1798, the first exhibition of industry was held in the Champs de Mars, in a small and somewhat insignificant palace. Nevertheless, it was a great event for Paris, and since then the idea has grown and developed to an extraordinary degree. See these figures:—

Year	Exhibitors	Prizes
1798 Champs Elysees	110	23
1801 Place du Louvre	220	80
1802 Salle du Louvre	540	254
1806 Esplanade des Invalides	1422	610
1819 Place du Louvre	1642	869
1823 " "	1642	1091
1827 " "	1695	1254
1834 Place de la Concorde	2247	1785
1839 Champs Elysees	3281	2305
1844 " "	3960	2353
1849 " "	4200	2738

The first International or Universal Exhibition took place in 1855, in the Palais d 'Industrie, which still exists. The number of exhibitors was 9,237. It is estimated that 20,000 people exhibited in 1867 and 1878. This year the number of exhibitors has been calculated to be 40,000, so you can see how these great tournaments of industry find favour.

A word about the wool auctions. The second series of colonial wool in London opened on the 2nd of April and closed on the 4th inst. An interruption of 6 days occurred owing to the Easter Holidays. River Plate wool is in great demand in the north of France. A rise of 5 to 10 per cent is expected in the next auctions to take place in Antwerp on the 21st of this month. Fine combed Buenos Ayres wool is worth in Tourcoing and Roubaix from 5.70 to 5.85 frs. per kilo. Ordinary class is quoted at from 5.50 to 5.70.

So much for wool. I have bad news for your maize-growers. An agitation is being again got up to impose a heavy duty on imported maize and molasses. A syndicate of distillers met recently in Arras and agreed to petition the Chambers for protection. The movement is spreading in the northern and central districts of France.

I hear from Geneva that Dr Keller, who is professor of Zoology in the Ecole Polytechnique of the little Republic, has discovered a swfft and certain remedy for phylloxera without injuring the vine. Dr Keller, it appears, has been a long time studying the subject and his researches are now crowned with success. He has been very much protected by the Federal Agricultural Department in his numerous experiments. Dr Keller's discovery is pregnant with importance for every vine growing country.

Yours truly.
Carlos Lix Klett

THE PARIS EXHIBITION.

Aix, Savoie, May 5.

To-day is the 68th anniversary of the death of Buonaparte at St. Helena, but the Napoleon traditions are now extinct and nobody thinks any more of living or dead members of that family. France is bedecked with flags from one end to the other to celebrate to-morrow the Centenary of the Revolution of 1789, which coincides with the opening of the 4th great Paris Exhibition. Last week America celebrated the centenary of Washington's first election as President of the U. States. How differently the two countries have used their freedom! In America the republican system has been established on broad grounds, with a hearty welcome to the oppressed nations of Europe, Homestead free-farm grants, perfect religious equality, and no persecution in any form. In France one hundred years have seen, first the Reign of Terror and then an odd mixture of two empires, two Bourbon monarchies and a variety of democratic forms at last solving into Boulangism. Persecution under one guise or other has marked almost every stage of French history during the last 100 years, but worst of all since the modern republicans came into power, a persecution of priests, nuns and sisters of charity. This is perhaps the secret why the American republic has gained the affection of every man who takes shelter under its glorious banner, while the French democracy has proved a melancholy failure.

The grand decorations that we see to-day in all French towns strike the bystander as resembling a final burst of fireworks, a "coup-de-theatre just before the drop scene falls on the last "tableau". We know that the present form of Government will not survive the October elections, when General Boulanger on his black horse will come in like Louis Napoleon, but what is to succeed no man can guess. When Buonaparte was dying at St Helena he made the memorable prediction that in 50 years Europe would be Cossack or Republican; but he was mistaken, for the Cossack Empire is weaker now than it was after Waterloo, and Republicanism has gained only in Italy and in England and Scotland. The rest of Europe views democracy with suspicion or hostility.

Frenchmen are irritated at the withdrawal from Paris this week of the 5 Ambassadors of G. Britain, Germany, Italy, Austria and Russia, the only one not recalled being the Spanish. Much as one abhors the atrocities committed in 1793 it seems odd that the great Powers should refuse to take part in the Centenary of the Three Estates of 1789, who were by no means identified with the crimes of the Reign of Terror. Strictly speaking the 6th May is as much a national festival of France as the 4th July is of the U. States: and there is no sound reason moral or political why other nations should refuse to take a seat at the friendly board. It is worthy of notice that the Papal Nuncio remains at Paris, for it is a tradition of the Vatican that republics and monarchies may be equally good if they govern for the public welfare. I hope you have read Cardinal Gibbon's splendid manifesto on the Washington centenary of 30th ult.

Nobody has a right to find fault with Frenchmen for opening their Exhibition on 6th May. Had they chosen the anniversary of the decapitation of Louis XVI. it would have been quite another affair. At all events the Exhibition will prove a brilliant success, partly because France has wonders of her own to shew, partly because all other nations have taken a part, and finally because Paris can always draw millions of visitors from every part of the Globe in preference to any other city. The following figures of past Exhibitions are instructive:—

1851, London	6,200,000	visitors
1862, London	6,250,000	"
1867, Paris	9,300,000	"
1873, Vienna	7,300,000	"
1876, Philadelphia	10,200,000	"
1878, Paris	16,100,000	"

It is not adventurous to predict that at least 20 million persons will visit the Exhibition which opens to-morrow. The most remarkable feature will certainly be the Eiffel Tower, so much decried when first proposed last year. It is the first time that the work of human hands has risen to a height of 1,000 feet, which is nearly double that of St. Peter's or of the Pyramid of Cheops. The tower of Babel, according to Herodotus, was 600 feet. Nor is the Eiffel Tower merely a curiosity of iron-work, for it will probably be utilized for scientific purposes, such as meteorological and perhaps astronomical observations.

The general public will view with much interest the habitations of various peoples; the street in Cairo for example, is a perfect deception, that would make you think you were in the city of the Caliphs. These imitations of foreign towns are much more elaborate than in the Exhibition of 1878 which had only scattered houses or huts. But it is in the varied and increased products of all nations that most attention will be centred. The world has made immense strides since 1878; you have only to compare the Argentine Republic or the Australia of that date with what they are to-day. The productive power of human labor is enormously augmented in all countries: the steam-power in use in the world in 1878 was barely 25 million horse-power, at present it is 40 millions. In other words 5 men can now do as much work as 8 men in 1878. The mills, factories, mines, prairies, cotton-fields etc. give forth their products more easily, more abundantly and more beneficently than before, to the benefit of mankind. All this will be put before the visitor at Paris in a very intelligible form, and the onward march of intellect, machinery and industrial developement will assert itself in every section of the vast display.

Telegrams this morning from Havre announce the arrival there of a contingent of the Argentine army, which attracted much notice, as the officers and men took an express train for Paris. I am looking out for news of the Admiral Brown with a contingent of the Argentine navy. The Argentines will be well received in Europe, as everybody is now talking of their country, which seems to have sprung up in a day like Venus from the sea-foam.

RACING

Yesterday the races, postponed from Sunday last on account of the inclemency of the weather, were brought off at the Belgrano Hipodrome. The Premio del Lago had excited considerable speculation and the interest was kept up to the very last moment. There were many false starts, due partly to the eagerness of the light-weights to get off well, but principally owing to the reluctance of Bismark to join the field. At one time the flag actually fell, leaving Bismark and several others standing at the post, while the others began racing, 3 of them persevering to the end; these were Ambush, Signet and Justicia who arrived in the order of their names, but immediately went on and placed themselves under the starter's orders again. Had the rider of Ambush at once weighed in he *must* have got the race. In the subsequent actual race, Bismark was always prominent and won cleverly from Caustique with the consistent Colibri third. Ambush was again very prominent and had he not had the earlier go in him, might have troubled the winner. The greatest possible credit can be given to his trainer, Ernest Day, for the splendid condition of Robert the Devil's son and for the vast improvement he has made in his form; in England, he would have been handicapped to receive 2½ stone from Bismark, whilst yesterday, giving weight, he made a creditable show against him under most disadvantageous circumstances.

The race between Nacional and Aperture was magnificient, the former receiving the verdict after a very tight fit indeed, the general opinion being that it was a dead heat, and that if they could have been separated, Aperture was in front of his opponent. The other events were won easily by Mundana, Nelly and Cormeilles respectively.

The comfort of the public is not in any way studied by the Belgrano executive, for although they have a very large number of sport ticket pigeon-holes, very few of them are in actual use; and the unfortunate would-be purchasers of tickets have to struggle and fight for what they want in a way certainly not conducive to enjoyment or good temper. Moreover, the Hippodrome people should arrange with the Railway Manager that the special should arrive in decent time before the beginning of racing; surely it is not impossible to expect this small concession by which everybody would gain.

A NEW LINE IN BUENOS AIRES PROVINCE—THE POOR PACIFIC—SOMEBODY'S LUGGAGE—THE CENTRAL ARGENTINE REPORT. A FAT DIVIDEND FOR FAT SHAREHOLDERS —— THE CORDOBA NORTH-EASTERN AND THE ETERNAL CENTRAL NOTH EXTENSIONS.

Our La Plata exchanges yesterday were miserably dull. The railway-fever is dying out. Not a word about the new station, or the new chairman of the Provincial Railway Board. There was barely one application made for railway-privilege, and that was relegated to such a remote corner of the papers that it almost escaped our notice. Still it is by no means an unimportant application, as our readers will see by the following details. The line, which Messrs. T. Garcia and Co. propose to construct, would start from Junin and run to Lincoln, thence to Lavalle and Villegas and from Villegas to Gainza. The adreferendum contract is to be signed to-day or the beginning of next week, and will be subsequently laid before the Legislature.

The local Board of the Pacific Railway are trying to explain, through the columns of our Argentine contemporaries, that they are in no way responsible for the disastrous effects of the floods on their line. They state that they did not consider the level of the line high enough at the time of the completion of the works, and that they purposely delayed the opening of the line to traffic on that account. However, as the reports had it that the line was built according to contract, and the authorities ordered the line to be opened, they had no alternative but to obey. The damages caused by the floods are no doubt very great. A camp-subscriber informs us that no man could ever have foreseen such disastrous floods. Where lies the fault?

The N. R. Board of late has received many complaints in regard to the carriage of luggage on the Rosario line, and we learned yesterday that Messrs. Alvarado and Puccio have written to Dr. Araoz stating that they sent a trunk the other day, with contents valued at $1,500, to Rosario. The trunk never arrived, and they very naturally want to know what has become of it. Dr. Araoz is going to look into the question.

The kilometrage run by the Southern Railway last April was very high, nearly 7½ milion kilometres; as follows: locomotives: 286,842, carriages 1,584,893, wagons 5,693,254. The goods' traffic on the Southern Line is enormous, and is growing every day. We believe that the kilometrage often tops a total of 8 million kilometres per month, which is a wonderful figure and shews what a powerful concern the Southern Railway is.

The local Board of the East Argentine Railway has submitted to Dr. Araoz for approval the tariff to come into force on and after July 1st prox.

A guard, named Cesar Brigantini, was killed the other day near Cortinez Station on the Pacific Railway. He was struck by a passing wagon and died after half an hour's agony.

The report of the directors of the Central Argentine Railway Company (Limited) for the year ending December 31, 1888 states that further expenditure on capital account has been made to the amount of £741,261 during the year, raising the total to £3,308,125. The gross receipts were £757,009, against £619,604; and the difference in exchange (beyond percentage increase of rates charged) was a credit of £12,059, against a debit of £20,972. Maintenance of way, working and other charges were £356,768, against £284,076, and net revenue was £412,300, against £314,556, resulting in an increase of £97,744 net revenue, as compared with the year 1887. The premium on £1,021½ new shares, part of the issue of £1,000,000 capital, not taken up by the proprietors to whom they were offered, has been transferred to the reserve fund, which has also been credited with the interest on the sum invested in consols and the amount received on the exchange of 3 per cent for 2½ per cent consols. The reserve fund at the close of the year amounted to £234,750, of which £57,707 was invested in 2½ per cent consols. After providing for interest on debenture capital, there remained a disposable surplus of £368,884, out of which an interim dividend of 5 per cent, amounting to £137,035, was paid on the 14th of December last, leaving an available balance of £231,849. The directors now recommend that a sum of £231,000 be appropriated in paying a further dividend of 7 per cent, free of income-tax, on the £3,000,000 ordinary stock and on the amount called up and paid on the £1,500,000 new £5 shares, making a total dividend of 12 per cent on the ordinary stock of the company, carrying forward a balance of £849 to the current year. The approximate weekly traffic receipts of the first 17 weeks of the curr rent year, as advised by telegraph, were £218,537, as compared with £204,642 in the corresponding period of 1888, an increase equal to 6·79 per cent.

Government has approved the statutes of the Cordoba and North Eastern Railway Co. Capital £350,000.

The extension works of the Central Northern Railway and branches, carried out by Messrs. L. Gonzalez and Co. during last April, were to the value of $355,957.07 gold, which will be paid in bills on London at 90 days, as follows:

THE PARNELL COMMISSION.

London, May 8th.

There was an exceptionally large crowd in and about the court yesterday morning, so large indeed, that many possessors of tickets were turned away. By an error some ladies were placed in the special seats reserved since the commencement of the proceedings last year for authorised representatives of the London Press, rendering recording duty somewhat difficult. This mistake, however, was rectified after the adjournment. Mr. Parnell's cross-examination was resumed after he had volunteered an explanation of his words in the House of Commons touching secret societies, to the effect that he had only intended to refer to the Ribbon Societies and not to the "great Fenian organization." Then we went back to the vital question of the missing books, and after Mr. Parnell had been vigorously pressed as to certain sums, notably 100 guineas, paid for the defence of Moonlighters out of Land League funds, which cheque, he said, he was ignorant of, the curious statement was made that Mr. Parnell had given no instructions to Mr. Lewis to oppose the examination of his private accounts from 1883—85, and questions were consequently put to him touching the items that figured in the accounts. It appeared that loans "of a private character," varying from £5 to £100 and £127—the latter sum going to Mr. Redmond—were made during this peroid to various prominent members of the Irish party, such as Messrs O'Brien, McGough, Larkin, Sexton, Boyton, Byrne, Redmond, Gallagher, and T. P. O'Connor, "on account of the Irish Press Agency." He charged Patrick Ford with garbling the reports of his speeches, as they appeared in the *Irish World*, "to suit the tastes of his readers," and promised to try to look up any speech or speeches of his own or any member of his party denouncing secret societies; but he could not at the moment fix on any words to that effect. Shortly after one o'clock, when the statement had been made that any member of the League who advocated dynamite would be a traitor to the cause, the cross-examination abruptly closed, and Sir Charles Russell took up his re-examination, which lasted for all the rest of the day. Its chief point was to show that from 1882 to 1885 the *Irish World* had been hostile to Mr. Parnell's policy, and had advocated a stronger and more drastic movement. This, of course, necessitated the reading of long extracts from that journal, bound and printed in book form, and this in turn brought on that somewhat wearisome feature in the case which we have had so often and which has been universally dubbed the "See-Saw Valse". Sir Charles would read all he thought material from his point of view, and then from the same speech, or from a different part of the same issue of the paper, the Attorney-General would read "counterblasts" which seemed to suit his purpose, and call attention to the fact that in some particular number there was a long letter from Mr Davitt, or a picture of Mr and Mrs Frank Byrne. Sir Charles in turn would press the Attorney-General to read *his* excerpts in full, and then Mr. Asquith would come in and help with the reading, and in his turn be replied to with more extracts, and so matters went on to the close of the day. Mr Asquith, M.P., has undoubtedly done good service to his side, and it is a curious coincidence that since Easter the *Times* Bar have been recruited by a new junior bearing a name phonetically similar to that of Sir Charles Russell's able junior—Mr. G. R. Askwith to wit.

The chief incident of the day was the arrival from Ireland of Mr. William O' Brien and Mr. E. Harrington. They entered the large hall at half past eleven, in custody of warders, Mr. Harrington at that time wearing the prison dress. They were at once shown to the Secretary's office and informed that the Judges had made an order that Mr. Harrington might appear in his ordinary garments, if he felt so inclined, and that gentleman promptly availed himself of the suggestion, and went off in a "four-wheeler" to avail himself of the very evident need of his barber's attentions and to return in most creditable civilized garb, with a tall hat and a blue overcoat with black velvet collar. He and Mr. O' Brien entered the court at 2.30, and caused no small sensation, as all eyes were turned on them. Mr. O. Brien looked haggard and pale, and wore a long loose cloak, over a black frock-coat, and a brown-and-yellow striped silk wrap round his neck. Mr. Harrington, in his new clothes, looked in capital spirits and excellent "condition." While in court both gentlemen were put on their parole not to attempt to escape, but were taken into custody again when the Court rose, after Mr. Parnell had left the box and crossed over to welcome his colleagues, and shake hands with Archbishop Walsh, who, it is stated, will be the next witness called. Lord Sherbrooke, Lord Camperdown, and General Sir R. Graham were among the newcomers, and Mrs. Gladstone, with whom was Lady Russell, sat in her accustomed corner.

EDITOR'S TABLE.

"Still they come!" groaned the head porter of the National Bank yesterday as he opened the door and saw all sorts and sizes of men and women pouring into the square from all points. From half past eight to half past nine over one thousand people presented Cordoba Bank notes to be changed; and in the afternoon hour for changing the crowd was the same, and the serio-comic scenes now so familiar were repeated when false notes turned up. We hear of one house that has $6000 of these precious souvenirs. Only forty six false notes were presented at the bank in the morning.

The concert to be given to-night in the Concordia saloons (The O. I. is cut out for once) will be worth attending. The young violinist Thadeu Schulz, who created quite a sensation in Rio, and even attracted the attention and praise of the Emperor Dom Pedro, will be assisted by Madame Blume-Sinter and Sr. Aronsohn. The programme is most select and varied, and not long, a great merit in a concert "menu". Tickets can be had at Hartmann's, Hardoy's Breyer's and other music shops.

Advices from Ayacucho yesterday report that interesting town as surrounded by water, and some of the residents had to abandon their houses. The rain has been heavy in most parts of the camp, and everything bucolic looks wretchedly "triste".

We much regret to hear that the gallant Commodore Lasserre has a bad attack of apoplexy.

A duel arising out of the Tajos ball was spoken of as probable yesterday. Two army officers of high rank. The ball is too stale a subject to fight about now.

The telegrama from Montevideo last night reported some of the bad old work in Mercedes, where crowds of ponchoed patriots paraded the streets with big sticks, yelling "Death to the Blancos!" What's up now over the water?

The Buenos Ayres Foot Club play the Southern Railway on Sunday at the club ground Santa Fé road. Kick off at 2.30 p. m.

The Rector requests us to ask the members of the congregation of St. John's Church to assist to-day in the floral decoration of the church for the festival of Whitsunday (to-morrow). Notification of the services of the day appears elsewhere.

The Revd Dr Smith A. M. called on us yesterday to correct a clerical error we made in answering the theological question heartlessly put to us by a subscriber. The Estabslished Church of Scotland, being Presbyterian, has no Bishops, and, consequently, cannot be Episcopal. There is an Episcopal Church in Scotland, but it is of course Dissentient. We decline meddling in theology again. It is not our forte.

The political pot in Mendoza is boiling over again. Yesterday the Governor, the "pro tem." Governor, and the whole Cabinet of the grapy province resigned; several Deputies did likewise, and there is a resigned-to-fate look about the inhabitants in general. Mendoza is the queerest place in the republic for politics.

"Linda di Chamounix," "Home, Sweet Home!" and a ballet form the bill of fare at the Politeama to-night.

Phenomenal shoals of pecarey are seen in the Uruguay at present. Their great rendezvous is opposite the Liebig Meat Factory, where tens of thousands are caught every day.

The Mount papers laugh about the berri-berri case here, and expect next to hear that we have quarantined some vessel because the captain has a wooden leg. It is really quite painful that our Health Board should leave itself open to such cutting remarks. It is berri, berri unkind of our Mount colleagues.

Dr. Davidson's long letter in the *Prensa* of yesterday in reference to the Drainage Works was read with great interest. It is a pity Dr. D. could not have entered the field of this most interesting discussion fifteen years ago, as he might have saved the citizens millions of money.

The increased figures of the Johnstown horror published yesterday have quite staggered people. It is the most dreadful catastrophe since the Japan earthquakes. Only in China has the world been accustomed to hear of such ravages effected by water let loose.

We are unable, for reasons that will be obvious to the witty writer, to publish the skit he sent us yesterday

De 44 Leguas de 1880 hectareas

Ubicadas en las provincias de Santa Fe y Santiago del Estero a corta distancia del ferro-carril de Buenos Aires Rosario y Colonias y su prolongacion a Santiego y Tucuman a 80 kilometros mas o menos de la estacion Arrufo y no muy distante de las estaciones Hercilia y Ceres, centros de colonia agricolas campos de un inmenso porvenir, las regiones del trigo.

Se remataran por orden de la sociedad Colonizadora Argentina, con la infima base de 5 ps. hectarea, Calle Alsina 482.

El Martes, 11 de Junio
A LAS 2 P.M.

Estos esplendidos campos estan situados parte en la provincia de Santa Fe, parte en la de Santiago del Estero distando 45 kilometres mas o menos de los Morteros en la provincia de Cordoba, rodeados por campos del señor Tristan A. Malbran, Colonizadora Argentina y otros.

Estan divididos en lotes de 4 leguas con 7522 hectas 9 areas 20 cents y se remataran un lote con opcion a mas a al todo con la infima base de 5 pesos hectarea precio increible si lo comparamos con los campos que se venden por las colonias y que se pagan 80 a 100.000 ps. legua; campos que hacen apenas 8 años no podian venderse arriba de 100,000 ps legua. Hace apenas 3 meses se han vendido campos inmediatos a los Morteros a razon de 57.000 ps. legua.

Los campos que mencionamos y ofrecemos en venta quedan muy inmediatos al ferro-carril de Buenos Aires y Rosario con ya prolongasion a Santiago y Tucuman pasa ya la estacion Ceres en el kilot. 120 que va a ser la gran estacion de maquinas maestranza y sobre la cual se esta formando un importante centro agricola, la estacion Arrufo 80 kils. dista unos 30 kils. mas o menos (6 a 7 leguas) de estos campos y donde pueden dirijirse los interesados que deseen inspeccionarlos y ende en linea recta al Oeste.

La importancia de esta localidad es innegable y a la vista de todo el mundo. La poblacion de Santa Fe, la colonizacion de sus colonias hace al Norte y en un par de años terminado que sea este ferro-carril el de los Sres. Portalis y los ramales que se iran construyendo produciran una gran revolucion en los valores de aquella region.

Ofrecemos hoy una fortuna a los que tienen fe en el porvenir del pais y no deben perderla pues raras veces se ofrece mejor y mas brillante negocio.

Por mas detalles y planos ocurran casa de los Sres. Guillermo Gowland y Ca., San Martin 175 o a la nuestra, Alsina 482 donde se efectuara el remate

Dr. J. Collis Browne's
CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years, in Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy & Chemists.

Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr. J Collis Browne, was undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to,—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.

ESPECIFICO DE
Hayward en Polvo
The cheapest and most efectual Dip in the market.
It costs a fifth of the price of Tobacco Dips.
By the extent of application, cold water only required.
It is the only Dip that is so durable in the wool as to keep the sheep clean and free from contagion from dipping to shearing, thus saving a great deal of valuable time and labour to the Estanciero during the winter months.
It is fast becoming the favorite Dip throughout the world, as it never fails in the worst cases of Scab.
See Testimonials from Flockowners in the Argentine Republic.
Manufactured by TOMLINSON & HAYWARD, Lincoln, ENGLAND.
Established upward of 45 years
Sold in cases containing either 80 small, 20 medium, or 16 large packets. Each case makes 1600 English gallons, or 1900 Galones Argentinos.

Business at the first hour to-day was almost a copy of that of yesterday, stocks "booming" and fizzling at such a rate that the market is unaware if the figures can be accepted as genuine or are simply the playthings of the brokers. The sovereign stock was quiet, but firm. Pobladora shares were done up to 193 for cash, and from 193 to 197 for end of month, opening and closing at 195. Flores Constructors "boomed" from 116 up to 137 for end of month, and almost as quickly fell away again to 124, closing at 125. Pobladores Railway Scrip was firm at 50.50, and the shares at 120, whilst Constructors were also steady and in fair demand. Little was done in Credito Nacional. Bolsa Bank closed at 66 for cash and 67 for end of month, and Credito Real improved steadily to 159 for cash and 160 for end of month. Cedula quotations were sustained. The market is thus topsy-turvy, and although all stocks now shew a most decided improvement on the opening of the month, parties are so afraid of a lull or collapse, that speculation is rife and investments ignored. It is well known that with a tight money market even the best stocks are almost unsaleable, and all suffer terrible depreciation. This may account in great part for the sudden ups and downs, as buyers hasten to realize profits after every spurt. It is also reported that syndicates are at work in almost every stock quoted.

The following is a summary of operations effected this afternoon during the first ring:—

Sr. Dn. Pascual Costa and son leave for Europe in the new Spanish steamer Maria Christina. Dr. Ocantos and family also leave in same steamer, and also Dn. Francisco Madero, late Vice-President of the Republic, and Dn. Ernesto Madero.

It is rumoured that the Catalinas Mole Co. has sold a portion of its reclaimed land at the very high figure of 250 m/n per vara cuadrada.

Sr. Diaz, President of the Bank of Cordoba is in town and to-day had a long interview with Sr. Stoppani, Manager of Banco de Italia y Rio de la Plata.

Three hundred certificates of Banco de Italia y Rio de la Plata 60 per cent paid, sold at 235 gold.

Messrs. Parody and Co. have asked Government for permission to establish a small steam-boat service for passengers and luggage in the Madero port and Riachuelo for a term of 25 years.

Messrs. Roma Duca and Co. have solicited permission of Finance Minister to unload the vessels that come consigned to them at their deposit La Atalaya on the Riachuelo.

Business was again very brisk at the second hour, and even National Bank shares were more animated, 3700 shares being taken for end month, up to 265. Cedulas were rather neglected. Constructors were firm at 137½ for cash and 139 for end month. Catalinas shares were a trifle weaker, falling away to 163 and closing at 163½. Flores Constructors were again in fair demand, but the speculation fell into quieter groove and the shares closed at 124 for to-morrow, and 127 for end of month. Credito Real kept very steady at 159 and La Plata Moles were in steady demand, closing at 168 for end of month and 171 end of July. It is rumoured that heavy orders have been received from Europe for this stock, and several import houses are securing shares at present rates. Sud Americano shares made their appearance, after a prolonged absence, being done at 5 ojo discount, which is a pronounced improvement, as they have been quoted as low as 15 ojo discount. Pobladora shares kept very firm, and there was a great superabundance of buyers both for this stock and the favorite Pobladores Railway Scrip. Bolsa Bank and Credito Nacional were firm.

The gold premium was again steady to-day, being quoted at 169.20 during the day. This is a most satisfactory feature, especially as the Lamport & Holt boat, Pleiades, clearing to-morrow, takes a heavy consignment of specie.

In exchange there was nothing doing, and brokers report the rate firm at 47¼—½d.

The R.M.S. Don arrived in Montevideo to-day from Southampton with London dates to 18th ult.

Lands around the Venado Tuerto lands are reported selling at 40,000 the league. An English gentleman has just sold out at that price, and we believe there are many parties looking for land in that quarter.

The National Bank gave to-day $311,000 gold at 1.60.

The Government will send a Message to Congress to-day about the retirement on full pension of Don Pedro Agote, for so many years the Chief of the Public Credit Department.

Mr. J A Garcia has applied for approval of the statutes of the "Nuevo Belgrano" Company, capital 1½ million dollars. This Company has bought the well-known Plowes quinta which will be divided into lots for building and other purposes.

The "Hogar" Company, for supplying food, has also submitted its statutes for approval, Capital ½ a million.

The "Elaboradora Quimica y Industrial", capital $200,000, has also asked approval of statutes.

The Sociedad Nacional Transatlantica and Fluvial has applied to Government for packet privileges and approval of its statutes. This is the second new line of steamers in project, and both the proprietors of the enterprise and the lines on which it will be based are an index to what is expected of Argentine foreign trade. The Company propose to purchase or construct 15 vessels of from 4,500 tons to 6,500 tons, and with an average speed of 17 miles per hour for the European and United States route, weekly sailings, and a further lot of 15 vessels of from 800 to 1,000 tons, and with a speed of from 12 to 15 miles per hour, for the up-river and southern coast route. The capital is fixed at twenty million gold dollars, in four series of 50,000 shares, and a moiety of the officers and crews will be Argentines.

The Catalinas Mole was besieged by immigrants to-day, no less than three vessels discharging their valuable human freights. There were landed from the Rio Negro 560, from the Amerique 450, and Intemerario 450, making a total of 1,460 persons.

The merchants of Azul have conceived the idea of starting a bank with a capital of three million dollars in shares of one thousand dollars each. Azul is one of the most prosperous of the Southern provincial towns, and it is said that a bank has been for some time an absolute necessity.

Dr. Newbery was welcomed to-day on his arrival from Media Luna, where he has now started quite a large English colony. About forty families have been started by the enterprising Doctor, and all are happy, satisfied and prosperous. They have ploughed up the land and turned out the best maize in the country, and we expect soon to favour our readers with some samples of the corn. The camps thereabouts are, strange to say, in splendid condition in spite of the wet season, but the roads are awful. Steers and wethers are fat, and the former are selling at 12.50 dollars.

Messrs. Barclay, Campbell & Co., agents for Chubb's Steel Safes, informed us to-day that the safe which defied all the burglars' attempts to force open on Saturday night last in Messrs. Borra & Ballerini's offices, was a Chubb. The safe contained 50,000 dollars in hard cash and many valuable papers and securities, and it is calculated by experts that the burglars wasted no less than six hours hard work on the task.

The "saladero" slaughter of the River Plate up to 31st May is as follows:—

	Head
Buenos Aires	818,800
Entre-Rios	319,800
Banda Oriental	339,700
Montevideo	335,000
Rio Grande	350,000

Santa-Fe advices announce that Governor Galvez arranged the second half of the 20 million gold loan for Provincial Bank during his recent stay in Buenos Aires. Mr. Carlos Casares leaves for Europe on Monday next.

The Dom Pedro, Chargeurs Reunis packet, has brought out £200,000 sterling in specie.

Some transactions in jerked beef are reported. Messrs. Peixoto Morales and Co. have chartered the Spanish lugger Marcelita to load 119,010 kilos for Havannah; Mr. F. Cibils the Spanish lugger Nuevitas to load 134,315 kilos for same destination, and finally the Archimedes takes 416 bales jerked beef for account of Gimenez and Co.

The estancieros' committee appointed to wait on and interview the Finance Minister, Dr. Tosso, in La Plata, with a view to having the "contribucion directa" valuations reduced, accomplished their task yesterday, but the Minister's reply was not entirely satisfactory, as he candidly confessed that the returns of the tax would not give the two million dollars set forth in the ways and means, which he considered an insuperable objection to any reduction. It is a singular fact that the iniquitous advance in valuations has been almost accepted unchallenged, and if the Minister's objection be held to be a genuine one, next year, should the Government require three millions to balance their expenditure, the farmers and estancieros will be expected to come again to the front. Increasing taxes on such a principle [and on such a scale is simply killing the goose of the golden eggs.

The following transactions in real-estate are reported:—

Araoz between Güemes and Charcas 11x45 for 9,781 m/n.
Matheu 1359 9x52 for 7,000 m/n.

LLOYD'S AGENCY
Tenders are hereby called for by the undersigned for raising the lighter 'Cotorra,' property of "La Platense Flotilla Co." at present sunk about 10 miles south of the Paseo Globo (Martin Garcia).
The 'Cotorra,' which is built of iron, with wood deck, was sunk during a storm on the 16. ultimo. She has on board about 600 rails to the consignment of Juan Clark y cia. and destined for Concordia, same being ex s.s. Copernicus, and she now lies in 14 ft. of water.
Tenders, which are to be made separately for cargo and lighter and based on a percentage of values recovered can be presented at this Agency up to 12 o'clock noon on Friday, 7th inst.
The cargo recovered to be delivered at Concordia and the 'Cotorra' when raised to be taken to the Boca to the Talleres of La Platense Flotilla Co.
The undersigned reserves to himself the rejecting of any or all tenders.
